## DETAILED ACTION

### *Double Patenting*

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

2. Claims 1-16 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-16 of prior U.S. Patent No. 6,920,712. This is a double patenting rejection.

***Drawings***

3. The drawings are objected to because the exploded view of figure 5 should be embraced in brackets. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

4. Claim, 3, 4, 8, 10, 11-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, it is unclear if the phrase "said pattern embossment" is the same as the phrase "visible pattern embossed" recited in claim 2.

In claim 4, line 3, it is unclear if the phrase "said frame" is the same as "said frame member" recited in claim 1.

In claim 8, line 9, the phrase "said printed image" lacks antecedent basis.

In claim 10, line 3, the phrase "said rectangular frame" lacks antecedent basis.

In claim 11, line 5, it is unclear if the phrase "said frame" is the same as the phrase "said frame member" recited on line 3.

In claim 12, line 5, it is unclear if the phrase "said adhesive" is the same as the "adhesive backing" recited on line 3.

In claim 15, it is unclear if the "staples" recited on line 3 is the same as the "stapling" recited on line 2. The examiner will consider favorably the phraseology "said staples of said end portion".

In claim 15, line 6, it is unclear if the phrase "said staple" is the same as the "stapling of the end portion"
